Property Description

Located on a small private mountain above Coronado with expansive views over the Mangroves to Isla Cano and the Osa Peninsula. You could pay a lot more for these views and drive a lot farther to get home after building on the construction ready site. Water installed, electric readily available at drive entrance. The private road to access this lot could be gated, only 5 properties with the right of use. The village of Coronado has the basics you need from a mini super and entertainment at the New Bowling Alley which will have restaurant and bar facilities as well. Ten minutes down the highway is the regional hospital and local government offices. A small stream crosses the property and there is plenty of land to construct your own private nature trail.
