Property Description

Nosara Springs is a special spot here in Nosara blessed with a beautiful tall canopy and old trees providing home to an abundance of wildlife here in the area. Nosara Springs was designed to be a low-density area with properties ranging from 1,000 mt.2 or 1/4 acre and up. This special property here measures 1/2 acre or 2,119 mt.2 with a large flat zone in the front and a small bluff or highpoint in the back of the property that runs the length of the buildable area. A private driveway entry connected to the property helps set the main building area back away from the main road providing maximum privacy. All of this a short distance to the beach, local grocery market, restaurants, and much more! All public utilities are readily available upon request to service providers. For more information about this great opportunity contact brian@surfingnosara.com
