Property Description

Located 600 meters above sea level in an area of high freshness 2 km from the paved street, just 30 minutes from the center of Perez Zeledon and 25 minutes from the beach. This beautiful property has spectacular views of the mountain range that ends at the famous Diamante waterfall, it faces a public street with access to all types of vehicles where electricity and public water pass but water is not a problem since the property has 3 creeks active all year round where you can draw water for crops, animals, swimming pools, etc. You already have an internal road-ready where you can make development and divide the property into smaller lots, 70% of the property is usable, a lot of lands in the grass, and at the end a little forest for close encounters with nature.
