- Mountain Properties

Property Description

Bonito Terreno para Desarrollo de Vivienda o Edificio de Oficinas en La Unión de tres rios. The terrain is flat with a very slight slope from the front to the rear. The slight slope is a benefit to correctly channel rainwater and wastewater from the back to the front of the land, since the sewer network is located on the paved public street. The land has a front of 20 meters and a bottom of 45 meters and closes at the back at 14 meters. Ideal for the construction of a single-family home or the construction of an office building.
