Property Description

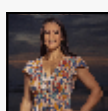

Luxury meets design in this beautiful 3-bedroom, 3.5-bathroom ocean view eco villa with swimming pool in the Santiago Hills. Designed by award-winning sustainability specialist architect Benjamin Garcia Saxe, this villa overlooking the quaint and charming town of Manzanillo on 5160m² of land is all about the essence of natural living. Whether for living in or as an investment piece, the home's stunning open design concept, stellar rental history, and unparalleled architectural pedigree make it one of the most unique and sought-after listings in the area. The villa is located at the intersection of ocean and jungle, and the home's design is centered around echoing and amplifying this theme. Views of the Pacific Ocean are on offer everywhere, starting with the home's outdoor swimming pool and deck area. Its placement just off of a dramatic change in elevation provides sweeping views of the jungle valley and ocean below.
