Property Description

Introducing Casa Vineta, a recently finished ocean view home surrounded by nature. As you walk into this modern and contemporary house you can't help but notice the impeccable jungle and ocean views. The open living area walks out to a spacious terrace as well as to a well-sized pool. Even from the commodious kitchen, that includes all appliances, you get to enjoy the vibrant green that the home is surrounded by. One of the two bathrooms is adjacent to the living area on the first floor. A beautiful wooden staircase takes you to the second floor, where the 2 bedrooms and the second full bathroom are located. Both rooms feature ocean and jungle views and you can access the wrap around balcony. The 1740m lot not only offers fruit trees but also enough space to add another structure. There is plenty of space behind the electric gate to park your vehicle and there is a carport attached to the home as well.
