- Surfers Pick

Property Description

Nestled along the pristine coast of Guanacaste, a short drive north of Nosara and near the quaint town of San Juanillo, lies an exclusive and peaceful haven: Playa Azul and The Sanctuary condos. This is a place few people ever hear about; an undiscovered spot along the coast that still allows you to directly connect with the utmost peace and tranquility possible.This is an oceanfront community - you have a five-minute stroll down to Playa Azul itself, which feels like an utterly idyllic "lost world" paradise. The only business along the beach is a boutique hotel with room for only a couple dozen guests - this is truly a gem of a location.This 1,700-square-foot condo would be the epitome of an "escape" vacation condo. With two spacious bedrooms, the condo has a terrace along its full length, which is the ideal spot for enjoying the ocean view. As you enter the condo, you are greeted by an open-floor layout that seamlessly integrates the living and dining areas.
