Property Description

Finca Pura Jungla is a development with a great story to tell. The finca was bought thirty years ago when it was nothing but pastureland for cows and the owner put a real eco plan in action:-He planted over 80,000 trees and built a forest.-He built a rain water catchment basin that now houses many aquatic birds and returns water to earth.-He kept a majority of the finca as a private reserve for local wildlife, nearly 120 acres of the 250.-All this hard work helped recharge the aquifers underground.The project is, essentially, a north and south ridge separated by a valley. The valley is a protected green zone. At the end of the valley there is an area for communal use for livestock or food production. Casa Mariposa is a brand new ocean view home in this marvelous community.This lovely contemporary home is set in a dramatic location filled with views of the mountains, valley, 120 acre preserve area, and gorgeous ocean views.
