The house is simple, with the outer walls built of concrete block, and the interior walls of light weight materials. There is ample space for parking under a covered car port and within the gates of the property. The lot size is 329m2, and the zoning allows for a total construction footprint of 75% - there is space to add on and you could also add a pool at the back of the property. The property has a municipal water connection and fiber-optic internet. This could be a lovely small family home or a starter home.
