Property Description

This exceptional property offers more than 11,000 m² (about 2.7 acres) with sweeping panoramic views over the Central Valley; on clear days, you can see the Irazú and Turrialba volcanoes. The solid house, built 15 years ago, provides a sound structural base and spacious living. The ground floor contains an open-plan kitchen, dining, and living area with large windows, a laundry room, one bedroom, a bathroom, and a generous outdoor terrace that frames the valley. Upstairs is a huge master bedroom with high wooden ceilings, a walk-in closet, and a large bathroom with room to add a bathtub. The sloped lot also includes three additional flat platforms suitable for guest houses or rental units. With some renovation, this property is ideal as a private home or an income-producing project.
