Property Description

This small ocean view home sits high in the mountains of Uvita on 3 acres in a quiet community of homes and is a perfect get away from the hectic pace of the modern world yet close to the surf and beaches. Surrounded by the rainforest covered mountains you'll find tranquility and cool breezes. The home is a very simple design with a living area, kitchen and bath on the first floor and the master bedroom on the second floor. Above the home there is a small rancho, also with an ocean view. There's also room to build another bedroom or casita away from the home or transform the additional land into a lush tropical landscape.
